To Sharpe Engineering,

I am writing to express my interest to join your company as a junior engineer. I graduated as a Mechanical Engineer in Queensland University of Technology with two years of experience in the oil and gas industry. I reckon you already know, my company OSMAC closed down a couple of months ago so now I am up for a new challenge.

Together with this letter is my resume which outlines my capabilities. Please keep my resume in your files and if there is any position you think that would suit my skills and experience or if you have any question, you can contact me through phone or email. Thank you and I hope to hear back from you.

Kind regards,

Erond Perez
